I am a focused person, able to work in almost any environment. I also like to consider myself a critical thinker, allowing me to identify several possible scenarios.

EDUCATION

Integrated Master's degree, Informatic Engineering

From September 2016 to June 2023

Universidade do Minho Braga, Portugal

WORK EXPERIENCE

Custom Software Engineering Analyst

Since May 2023 **(1 year)**

Accenture Technology Solutions Braga

Application Modernization for Cloud Deployment:
- Collaborate within a team focused on modernizing hundreds of applications for cloud migration.
- Analyzed application architectures to enable enhancements such as OAuth2 authentication, improving security and user management.
- Streamlined deployment by adapting applications for containerization or virtualization, facilitating their deployment on a private cloud infrastructure.

Technology stack: Docker, Helm, GCP, Azure, Java, Spring, JavaScript, ASP.NET, PHP

Advanced App Engineering Analyst

From January 2023 to May 2023 **(4 months)**

Accenture Technology Solutions Braga

Migrated Web Applications to Google Cloud Platform (GCP):
- Successfully migrated two web applications to GCP, ensuring seamless transition and functionality.
- Adapted and customized an open-source application for a client by analyzing its operational flow, introducing tailored modifications, and implementing client-specific requirements.
- Created on a Python-based reverse proxy application for a static website, enabling dynamic resource fetching from GCP Cloud Storage based on HTTP request parameters.

Technology stack: GCP, Docker, Java, Python, JavaScript

Application Developer Associate

From November 2021 to January 2023 **(1 year)**

Accenture Technology Solutions Braga, Portugal

I was part of the front-end team of a web application (business to business) that would use a back-end to get data and execute actions to present a catalog page and shopping carts.

Technology stack: Vue.js, TypeScript, HTML, CSS, Jest, Cypress

ADDITIONAL EDUCATION

Applied Cryptography Specialization

From July 2020 to August 2020

University of Colorado Online

Credential

Identifying Security Vulnerabilities

From June 2021 to July 2021

University of California, Davis Online

Credential
